#### Alfred Hand was Helpless and Alone When Murdered.

Mr. Burt Cogswell was in from the Chiricabus mountains vesterday. He states no further news of the killing of Alfred Hand, the young men who was murdered by the Apaches last Satur-Jay, has been received. The fiendish work was undoubtedly done at hands of the murderous band of Apaches, supposed to be about 7 or 8 in number, among whom undoubtedly is that arch leader and cutthroat the Kid, who have been roaming about between their

Mr. Hand was highly educated, being a college gradnate, but was a paralytic from youth, his speech also being effected. The climate of Arizona proved beneficial to him, and he felt at ease here, experiencing a partial restoration of the raisied functions. He constantly ramained at the ranch and looked after the stock and goats, and on the day day when he was brutally murdered by the bloodthirsty Indians was alone at the ranch, his brothers having gone to Pearce the day before, and on their return found the body of their brother horribly mutilated, the house ransacked and several horses stolen.

Alfred was of kindly disposition, good natured and had numerous friends who mourn his death and sym-pathize with the stricken brothers.

ARAGO, COOSE Co., OR., Nev., 10 1893. -I wish to inform you of the great good Chamberlain's Pain Balm has done my wife. She has been troubled with rheumatism of the arms and hands for six months, and has tried remedies prescribed for that complaint but found no relief until she used this Pain Ba'm; one buttle of which has completely cured her. How many people ever consider how many conventions are held to nominate one man for the Presidency. There are 357 members of Congress so that makes 357 district conventions. There are to be 45 State conventions and Alasks, Indian Ferritory, District of Columbia, Oklahoma, Arizona and New Mexico add six more or a total of 408 conventions not counting the county or assembly conventions besides. There are 2642 counties in the United States and more assembly districts, so it is safe to say that each of the great parties will hold over 3000 conventions before their national conventions meet. Every man who wants to take a hand in making a President ought to be able to get into one of these 6000 conventions not to speak of the Populi-te, Prohibitionists and sil-
